

## Paradise Mojito

NIBBLEDISH CONTRIBUTOR

### Ingredients

-7 Leaves of Fresh Mint -1 1/2 oz Mango Rum -1 tablespoon Passionfruit Syrup -1 lime  
-Sugar -Club Soda -Ice

### Instructions

Half drunk and mixing drinks for my friends one night, I developed a fruity twist to the traditional styled mojito. While the classic mojito is known for its minty lime flavor, my Paradise Mojito has a sweet tropical refreshing flavor. 1. In a shaker add 5 leaves of fresh mint with a pinch of sugar. Crush/bruise the mint with the back of a spoon to release the flavor. 2. Squeeze the juice of half a lime into the crushed mint. 3. Add the mango rum, passionfruit syrup, club soda (about 3-4 oz depending on how strong you like your alcohol), and few cubes of ice to the shaker. 4. Shake Well. 5. Pour entire content into a large glass and garnish with the remaining 2 leaves of mint and a slice of lime. 6. Serve on a hot summer day~
