

Orange Juice Float

NIBBLEDISH CONTRIBUTOR

Ingredients

-Tropicana Orange Juice With No Pulp -America's Choice Orange Sherbet -Small Cup
-Ice Cream Scooper

Instructions

I wanted to make another float, but I'll do that next time, this just came out of nowhere. It's really delicious and makes a great drink or snack on a sunny day. Of course you don't have to use the exact brand of ingredients, but that's just what I'm using at the moment. 1. Pour yourself a cup of orange juice. 2. Take a scoop of orange sherbet and add it into the cup of orange juice. 3. Enjoy! I messed up the picture, it looks like a huge egg yolk in a glass of orange juice...sorry my photography skills suck. D:
