## Instructions

Super easy chicken pot pie recipe I found and altered a bit... it was my first time but it came out surprisingly well.

1... cook the chicken while defrosting the veggies. (the pie crust should be defrosted before you start... they take a while) i added some ground pepper.

2... add veggies with corn, chicken broth and soup.

3... after it comes to a boil place in baking dish/pan and cover with the pie crust.

4... beat egg and cover the pie crust with it. pierce the crust with a fork or knife a few times...

bake till golden brown
