Pumpkin Ice Cream

NIBBLEDISH CONTRIBUTOR

Ingredients

1 cup whole milk
1/2 cup sugar
1 15-oz can pumpkin puree
2 cups heavy cream, chilled
1 tsp vanilla extract

Instructions

Follow manufacturer's instructions on how to prepare your ice cream maker.

1. Heat whole milk in a medium saucepan until it bubbles around the edges.
2. Whisk sugar and pumpkin puree into the heated milk.
3. Transfer to a medium bowl and let it cool completely.
4. Stir in heavy cream and vanilla.
5. Chill for at least 30 minutes
6. Churn the mixture in an ice cream maker for at least 30 minutes or until thickened into a soft-serve consistency.
7. Freeze for at least 2 hours if a firmer consistency is desired.
