Instructions

Easy this one.

- Place your salad leaf's in a bowl or on a plate.
- Chop the cucumber and add to the salad.
- Season your beef with plenty of ground sichuan pepper and salt. Fry on a super hot griddle pan for about a minute on each side.
- Meanwhile cut the beet root in to thin slices.
- Finely chop your chilli (I used 2 birdseye chili's).
- Mix the chilli and beetroot together and add to the salad.

I made a simple dressing for the salad to make sure it isn't too dry.

-
- Finely chop the spring onion.
 - Put olive oil in a bowl, add the spring onion.
 - Season with lime, black pepper & salt.
 - Add to the salad.

Whip the steak off the griddle, slice and serve on top of the salad.
