

## cabbage soup (diet)

NIBBLEDISH CONTRIBUTOR

### Ingredients

whole cabbage cut in squares  
2 carrots thinly cut (i cut them in half then sliced thin)  
1 green pepper  
2 green onions  
1 zucchini  
2 sweet onions  
can of diced tomato  
2 cloves garlic sliced  
ground pepper

i added japanese YAMASA tsuyu  
and some soy sauce. i really added a tiny bit

enough water to almost cover the veggies. i added a little over 1 liter... aka the big  
kirkland bottled water

\*optional ginger (sliced and smooshed)  
if you like ginger... i'd recommend putting it in. if you like it alot then put alot, but even a  
small amount would be good. i added about an inch of ginger because i love it.

### Instructions

this is really easy and since i've been told by a few that i needed to lose weight... i'm  
trying this for as long as i can. (i'm betting 3 days haha.)

this time it came out pretty good. its very good for you, but if you're a meat lover...

---

---

sorry. :)

1. cut all the veggies while the water boils (you can add more water later if you feel its not enough.)

2. when the water is nice and hot, add all the veggies and the sauce

3. simmer till veggies are soft and thats it.

i make it in a big pot and just leave it in the fridge... pour me a bowl for lunch and/or dinner, microwave... thats it. i was told you can eat as much as you want and i think its perfect for now... with all the cold weather and all. :)
