

Easy Peasy Delicious Queso

NIBBLEDISH CONTRIBUTOR

Ingredients

- 1 block of Velveeta cheese (I use the Kroger brand)
- 1-2 handfuls of spinach
- 2-5 jalapenos (depending on how spicy you like it)
- 2 cans of Rotel (can also use Kroger brand)
- Garlic Salt
- Crushed Red Pepper

Instructions

Pretty much throw it all in a crock pot. The Velveeta and Rotel go first. Cut the jalapenos next. You need to de-seed them as well. But I like to leave a decent amount of seeds in because I like my queso spicy. Throw them into the crock pot third. I like to add the spinach once the cheese is halfway melted, this way you can stir in in there pretty good. The garlic salt is to taste, and the crushed red pepper is only if you like it spicy. Those should both be added once the cheese has melted. Once it is all heated up, turn the crock pot on low and enjoy. And to be quite honest, i do not know how anyone could not like this!!! :)
