

## Coconut Jelly Drink

NIBBLEDISH CONTRIBUTOR

## Ingredients

- 1 (10 g) Packet of agar-agar(see here for info; http://en.wikipedia.org/wiki/Agar)
- 1 Glass plain water
- 6 Glasses of coconut water (from 3 young coconuts)
- 1 Glass sugar (subject to your taste bud)
- 10 pcs of Pandan leaves
- Coconut Gel (Gegan) extract from inside young coconut
- a dash of pandan essen (food flavor)

## Instructions

- 1. Dump all ingredients in a big pot and heat up till agar2 + sugar dissolved.
- 2. Add in Coconut Gel (gegan) + a dash of pandan essen stirred well then switch off the flame.
- 3. Pour into small containers or small bowls then put aside to cool off.
- 4. Once cool, the coconut must be kept in the refrigerator
- 5. Serve while it cool, yummy
