

Pan-Roasted Trout with Vegetables & Rosemary-Thyme Sauce

NIBBLEDISH CONTRIBUTOR

Ingredients

Serves 2 - 2 trout fillets - potatoes (I prefer new potato, leaving the skin on) / quartered - small red onion / quartered - yellow and orange pepper / sliced - courgette / sliced - cherry tomato / halved - rosemary - salt & pepper - olive oil for the dressing - 1 garlic - 1 tbs rosemary / finely chopped - 1 tbs lemon thyme - 1 lemon - extra virgin olive oil - black pepper

Instructions

1. Put the potatoes into a big mixing bowl, sprinkle with rosemary, salt and pepper and few glugs of olive oil. Get your hands in there and mix it all up. 2. Place onto a baking tray and place into the oven. (200 degrees celsius) 3. Repeat the first step but using the vegetables this time, and place onto a separate baking tray then into the oven. 4. Coat the trout with olive oil and season. 5. Place into a hot frying pan, skin down first and fry for a minute. Then turn over and cook for 2 - 4min depending on thickness. 6. Place the fish onto a baking tray and into the oven. 7. To make the dressing. Use pestle and mortar to grind the herbs together and add the rest of the ingredients. Remember to constantly taste the dressing while you are making it, the quantities are not absolute! 8. Pile the goods together and serve with the dressing drizzled on top! For bonus points, sprinkle all over with some lemon thyme. (The potatoes take about 15 mins to cook in total, the vegetables around 10 min and the fish only takes around 5 min or so to cook in the oven... if something is cooking too quickly just move it to the bottom shelf of the oven.)
